January 2007 Show

Happy New Year from the Entertainment Department! We are so excited about all of the things we have planned for you guys in 2007. It's going to be a lot of fun!

First off, let's talk about the January Show. It's always hard to tell how good a show is going to be until it's completed. We finished this one, sat back, watched it…and wow; we think it's a great show! We know you're gonna love it.

One of the things we did with this show was really tweaking the audio levels. We've been working on those over the past few programs and feel really good about this one. All of the audio levels are good and strong… and even across the board. One more time: no more surfing the volume levels from show segment to intermission. Set it strong and leave it. You won't have to worry about the level jumping out of control Thanks to Ryan Hollingsworth for being so diligent on that one. He's doing a great job.

Be sure to pay close attention to the animation on this show. Michael Hill bent over backwards to program this thing to a tee. If your show is up and running 100% (which we know it is), you'll get to see his magic in action.

Okay, one of the things we're kicking into gear this year is CHOREOGRAPHY TRAINING videos for every Live and Road Show we release in 2007! We put a survey and you guys spoke loud and clear… "Let's have the training material in the show room so we can work on it there!" Well, that's what you're getting…choreography training material that will play in your particular show room. If you've got a Studio C Show, we embedded it into the program so you can call it up from the Manager Control panel. If you've got another stage format, we've supplied you with either a Choreography DVD or a VHS that will run in your show player! No more trying to squeeze into the break room to see how to do a live show…we've taken it to the show room!

Also, for you folks who have the retro stages that run on DVD (3 stage and CEC stage), we've broken out diagnostics to its own stand alone DVD! It's even broken down by chapters for each character, etc. Oh, yes… incredible, isn't it?! Hopefully this will ease your pain in diagnosing your stages. You guys who are still running on VHS, you might want to contact Joel in the Parts Dept (SPT Warehouse) or speak with your district technician. To change from VHS over to DVD is more affordable than you think. Not only that, you get added benefits and efficiency…even a better picture!

Finally, you guys know we can't do any of this without you. Let's make 2007 a great year of entertaining our guests. Let's make our stages a priority so that we can put our best foot forward with our shows. Together, if we all give it our best, we can take our entertainment from good to GREAT! We've got a lot of great new things planned this year and we can't do it without you. Thanks for all you do!

Robert Gotcher

Hokey Pokey's Back!

That's right! The Hokey Pokey is back for the whole year of 2007. WooHoo! And it's actually part of a new compilation CD for your Road Show. FYI, the Cha Cha Slide license has run it's course; it is not valid in 2007. Once you receive your new Road Show CD, please send your old one back to us 'Attn: Entertainment.' Make sure and write your store number on the old CD so we know where it came from. Thanks! Hokey Pokey all you want in 2007… rumor has it that it will also be showing up in video form on your show as well! We'll talk with you soon!

Old MacDonald had a Video!

Oh, yes…you've used it a lot for your Road Show. Now, Old MacDonald has a video has been included in your show as a new Live Show. Let's hear those animal noises loud and clear! We hope you enjoy your new choice in the realm of Live Shows in the show room. Have a great year!
